

GRADUATION MESSAGE

Supervisors, School Heads, Teachers, Graduates & Parents, Congratulations!

This event is a momentous event for all of us especially for the graduates as this day is the day they will reap the fruits of the labor they rendered through the past years. Finally, all the sleepless nights you had to make assignments and projects and to study hard for the tests paid off. Tough it may have been what matters most is that you are here now and you deserve to be called a graduate. You earned it, give a pat to yourself.

I would like to extend my gratitude to all of you. Thanks to all of you, the graduation rate in our beloved Misamis Oriental is high. I thank the supervisors and school heads who consistently thought of ways to make the quality of the students' education better and in providing an environment conducive for learning. I thank as well the teachers for tirelessly rendering their time and knowledge to educate the students. I also thank the friends of the graduates who made the learning experience of the graduates more fun and memorable. To the families especially to the parents, thank you for supporting the students all these years especially when they were down and about to give up. To the students, thank you for doing all your best to complete your study. What a great journey it had been for all of us.

I hope that you'll continue to aspire to do better and be the best that you can be. After all, you will be future leaders of our country. As President Benigno Aquino III stated, you are the greatest treasure our nation can ever have and you deserve nothing else but the best that's why he pursued the K to 12 program. I hope that the K to 12 program can help you elevate your life and our country subsequently.

This graduation could be the last page of a chapter in your life but definitely not the last page of the book of your life so continue to dream big. Have the courage to follow your heart and intuition as Steve Jobs once said. And when you dream, work for it, take action. Bradley Withford once said, "Take action. Every story you've ever connected with, every leader you've ever admired, every puny little thing that you've ever accomplished is the result of taking action. You have a choice. You can either be a passive victim of circumstance or you can be the active hero of your own life." Let us all be inspired to dream, take action and be heroes of our own lives. Let us be heroes of our own nation.

CORAT. ASA, Ph.D.

OIC-Assistant Schools Division Superintendent
Division of Misamis Oriental
